

benefits package" for all Americans and then requires all citizens to purchase it. This mandate will be enforced by a massive expansion of the IRS, which will fine those who do not comply two percent of their income. I believe that individuals can best determine for themselves how comprehensive their health care insurance should be, and that Americans have many different needs which cannot be defined by a one-size-fits-all package. Unfortunately, H.R. 3590 sets the stage for mandated, standardized health care.

The provisions in H.R. 3590 will hurt families, businesses, and kill jobs at a time when we can least afford it. The Congressional Budget Office (CBO) has reported that this health care package will most likely raise premiums for millions of families by \$2,100 per year. It also taxes employers if they cannot provide health insurance and their employees receive federal subsidies—this provision will cause employers to lay off employees due to cost increases, and it discourages companies from hiring low-wage workers who are more likely to qualify for subsidies. Furthermore, Democrats have promised that Americans may keep their health insurance if they like it, but the CBO has predicted that up to 9 million Americans will lose their employer-based coverage. Additionally, the bill imposes an unfunded mandate on Texas by drastically expanding the Medicaid program, costing Texas an estimated \$24.3 billion dollars in the next ten years.

Unfortunately, the reasons why this bill will hurt this country abound. This legislation fails to ensure federal funding is not used for elective abortions. While the President has promised to issue an Executive Order for political effect, the President cannot amend a bill by issuing an order, and the federal courts will enforce what the law says. The bill also fails to include proper verification procedures to ensure illegal immigrants do not receive federal subsidies to purchase health insurance. Furthermore, it lacks protections for 9.2 million military personnel, families and retirees that their health insurance will not be affected. These pitfalls explain why Americans have flooded the DC area in protest, a visual testament of the public opinion on the Democratic health bill, which has become largely opposed throughout the debate. Unfortunately, the Democrats have not listened, and in one of the largest abuses of majority power, have forced their hand on the American public.

My fellow Republicans and I have been willing to work on health care reform from the beginning of this debate. We have introduced numerous proposals emphasizing free market solutions and cost-cutting strategies to make health care insurance readily available and more affordable to Americans. We were present when the President called us to discuss health care reform, but our willingness to start over and work together was ignored by our colleagues. I am disappointed by the events of tonight, but I have not given up and will continue to work for true reform that will lower costs instead of simply shifting those costs onto the government.

A TRIBUTE TO CAROL WILSON-SMITH

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, March 22, 2010

Mr. TOWNS. Madam Speaker, I rise today in recognition of Carol Wilson-Smith for her continued service and commitment to the health care field.

Carol Wilson-Smith is currently the Director of Rehabilitation Medicine at Kings County Hospital Center (KCHC). She is responsible for overseeing all operations of the department, managing the budget, and for ensuring that all patients receive the most effective rehabilitation that allows them to maximize their function to be re-integrated into their community. One of the many challenges of her position is adapting to the changing healthcare/managed care requirements as resources dwindle and patients' demands increase.

Carol began her career as a public school teacher specializing in Physical Education. After fourteen years in this role, she changed careers and attained a Physical Therapy degree. She has since practiced as a Physical Therapist at Harlem Hospital and Kings County Hospital, in the New York City Department of Education and in Home Care and moved on to become the Director of Physical Therapy and subsequently of Rehabilitation Medicine, EMG/EEG and Early Intervention at KCHC. Her ultimate goal is to have a positive impact on policy and decision making in the health and wellness field on a larger scale.

She received her secondary education at St. Joseph's Convent in Port-of-Spain, followed by a Teacher's Diploma from the Trinidad and Tobago Government Teachers College. She enrolled in the Physical Therapy program at Mona Campus, University of the West Indies before migrating to the United States of America where she earned her Bachelor of Science in Physical Therapy at Howard University. Ms. Wilson-Smith received a Master of Arts in Motor Learning from Columbia University, and a Master of Public Administration from New York University. Currently she is enrolled in a Doctoral Program at Boston University.

Recently appointed to the New York State Board for Physical Therapy by the Regents of New York City Department of Education, Carol has worked with the Foreign Credentialing Commission for Physical Therapy for the U.S. Citizenship and Immigration Services (USCIS).

She is a member of the Trinidad & Tobago Alliance USA, Inc., and is a member of the Board of the University of the West Indies Alumni Association New York Chapter, providing educational scholarships to deserving candidates from both organizations.

As a devoted mother of three children: Naila, Kayode, and Karim she lives by the maxim: To whom much is given, much is expected (Luke 12:48).

Madam Speaker, I urge my colleagues to join me in recognizing Carol Wilson-Smith.

A TRIBUTE TO NOVA HINDOYAN, 29TH CONGRESSIONAL DISTRICT WOMAN OF THE YEAR—2010

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, March 22, 2010

Mr. SCHIFF. Madam Speaker, I rise today to honor Nova Hindoyan of Pasadena, California. Each year in March, in recognition of Women's History Month, we pay special tribute to the accomplishments made by our nation's most distinguishing women.

Nova came to the United States in 1975 from Damascus, Syria to attend her brother's wedding. While here, she met Garabet Hindoyan, then a student and now the co-owner of Burger Continental Restaurant in Pasadena. They fell in love and married within the same year. They were blessed with a son and two daughters.

Nova has been a long-time dedicated member of the Armenian Relief Society of Western USA, Inc., (ARS-WR) and has held executive positions as Chair of the Armenian Relief Society of Pasadena Chapter "SOSSE", as well as been on the Executive Board of Directors of the ARS-WR as vice chair and chair. She has worked on the ARS Public Relations Committee's special events, Red Cross blood drives, and City of Hope Bone Marrow Registry. Nova has always been an active parent and was on the Parent-Teacher Association while all three of her children were in school.

With her leadership, she was able to raise funds for special projects for ARS, most recently for the Society's Centennial Fund. She was also on the Board of Directors of the Old Town Conservatory School of Music in Pasadena, as well as on the Board of Directors and an active participant of the Lark Musical Society. Nova has sponsored foreign students who have come to enjoy her hospitality while they were in school. Today, Nova is on the Board of the Directors of the ARS Central Executive, while staying active in her chapter in Pasadena.

I ask all Members of Congress to join me today in honoring a remarkable woman of California's 29th Congressional District, Nova Hindoyan. The entire community joins me in thanking Nova for the meaningful impact she has had on the 29th Congressional District.

RECONCILIATION ACT OF 2010

SPEECH OF

HON. MICHAEL K. SIMPSON

OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

Sunday, March 21, 2010

Mr. SIMPSON. Madam Speaker, I rise today in opposition to H.R. 3590 and H.R. 4872. Passage of this legislation represents the first step to a government takeover of our health care system. Everyone agrees that our health care system needs to be reformed. Health care in America is too expensive and too many families across America are worried about losing or have already lost their health coverage. Businesses, small and large alike, are struggling to provide health insurance for their employees.

Unfortunately, rather than working on real reforms to improve access to health care for
